

Subject : Foot & Mouth Disease outbreak-regarding.

ORDER

In view of recent reports of Foot & Mouth Disease (FMD) outbreak in many districts and the apprehension that it may spread to more areas, there is a need to improve vigilance & monitoring across all the ten districts of valley to keep an eye on the emerging situation. The strict surveillance has become important due to concentration of flocks at various Sub-alpine pastures & Highland pastures.

In this backdrop, Deputy Director Research, Disease Investigation Laboratory Nowshera shall act as a Nodal Officer who shall devise and implement a comprehensive FMD control strategy taking all stake-holders on board. He shall coordinate the efforts of remedial measures being undertaken in order to control the outbreak. He shall also be updating this office on daily basis about day-to-day developments viz-a-viz FMD outbreak and its control.
